

San Diego Regional Center

Serving Individuals with Developmental Disabilities in San Diego and Imperial Counties

San Diego Regional Center provides support services for individuals with developmental disabilities. Developmental disabilities include autism, cerebral palsy, epilepsy, intellectual disability (formerly known as mental retardation), and conditions similar to intellectual disability or requiring support services like that of an individual with intellectual disability. The conditions are expected to last indefinitely, originate prior to 18, and represent a significant handicap to the individual. The information in this referral will be kept confidential.

REFERRAL FOR AGES 3-17
